

MIRCO GRAENERT CONSULTING INC.

MGC is proud to be a distribution partner for the following products:

 **BRANKAMP**

 **ipdisplays**

SKILL	LCH	CIO	SER	ABN
Gold	4	96	3	
Red	32	91	9	
Help	13	98	13	
Sales	84	78	4	
HR	86	78	7	
Ret	145	92	15	

SERVICE INFORMATION

Machining / Stamping / Assembly — Consulting & Contracting

Metal processing assistance - including, but not limited to:

Value added In die process integrations, reduction of slug problems and slivers in tools, cutting edge welding, troubleshooting, process Improvements, material savings, prototyping, stamping tool blue spotting, engineering changes, manufacturing feasibility, rapid die repair, electronic sensing, vision system integrations.

CAD Design

With the use of state of the art 3D CAD software and our industrial background, designers complete tasks with the manufacturing and *final* product *assembly* in mind. Our strong Tool and Die back ground enables us to assure cost effective design, we strive to keep designs simple, hence reduce manufacturing process and maintenance costs. Our focus is on design of prototypes, stamping components, machine parts, and die components.

Rapid Prototyping

Need a quick prototype, or physical visual aid? Call us regarding feasibility and timing, you might be amazed as to the cost and timing available when making use of modern technology. We are reseller partners for Z-Corp® 24 bit full colour 3D and elastomeric printers.

Continuous Improvements

Stamping tooling such as progressive dies, draw tooling and transfer tooling to name a few.

Check fixture repeatability improvements and in die value added process integrations.

Design improvements assuring high quality and repeatability.

Productivity improvements in steel stamping and assembly is what we pride ourselves in.

When it seems impossible call us.
